# PROUDLY 100% EMPLOYEE OWNED

We're in the business of gardening because it nourishes the body, elevates the spirit, builds community, and makes the world a better place.

For 40 years, our design & development team has been listening to our customers and solving gardening problems in creative ways. Thanks to them, many of our products can't be found anywhere else!

We donate 8% of our company profits to programs and organizations that are using gardening to improve the world.

# LAVASTONE® PLANTERS

Unique planters with a unique story! Made with volcanic ash from an eruption of Mount Pinatubo in the Philippines, these planters have the look and feel of aged stone pottery, with the lightweight versatility of plastic. An elegant embellishment for your deck or patio.

# CORTEN LEAF RIM PLANTERS

Laser cut leaf patterns add even more character to these sturdy Corten steel planters. And the distinctive look of Corten steel goes beyond style — the patina of rust that forms over time acts as a protective corrosion-resistant coating, increasing the durability of these planters.

# CHICKEN WIRE CRITTER FENCE

Secures your crops from critters and pets, while still allowing easy access for you to reach in or step over. Easy to assemble and install. Available in galvanized or black finish. 90" L x 45" W x 16" H, assembled.

Additional panels (sold separately) let you create an enclosure as large as you need.

# TEARDROP TEEPEE TRELLIS

Perfect in a pot or great in the ground, this charming 47.25" tall trellis provides helpful support for sweet peas and flowering vines to climb and bloom.

# SELF-WATERING FIBER CLAY POTS

Available in cool tones that allow your plants to be the stars, these planters offer the unique, textured look of a clay pot, with the lightweight, frost-resistant durability of plastic planters. Paired with an innovative 2-way self-watering system (wicking and evaporation), these pots make a happy, healthy home for your prized plants.

# TALL CHICKEN WIRE CRITTER FENCE WITH GATE

If the critters snacking in your yard have a height advantage over shorter fencing options, try our elevated version, complete with latching gate for easy (human) access. At 46" high, it offers great protection against deer, bunnies, and other browsers, large and small.

# EXETER ARBOR AND PLANTERS

Make your Exeter Arbor an even more enchanting entryway by pairing it with coordinating coir-lined planters (sold separately). Add attention-grabbing color by planting annual flowers or line your Exeter Arbor with flowering vines to create a fully filled-in trellis.

# EXETER ARBOR CONNECTORS

Extend the classic lines and maximize the vine growing space of your Exeter Arbor by connecting two or more into an enchanting tunnel. Each set of 8 connectors links two arbors. Connect as many as you want with additional connector sets!

# COVINGTON ADJUSTABLE PLANT STANDS

A perfect potted plant companion, Covington plant stands can be adjusted to fit virtually any medium-to-large size planter, adding layers of height and depth to your garden. With subtly ornate styling, these planters offer an elegant combination of look and lift. Available in 3 different sizes (sold individually).

# ADJUSTABLE BAMBOO PLANT STAND

For a more simple and natural look with the same versatility, our GSC-designed adjustable plant stand made from sustainable bamboo, gives small-to-medium potted plants a lift, adding a new dimension of visual interest to your living room or garden. Comes in set of 2, available in Natural or Black.

# JARDIN TOWER PLANT SUPPORT

Make a statement in your garden with this towering support. At nearly 8 feet, it's so tall, your beans may need a breather halfway up! Made from sturdy and long-lasting powder-coated steel, its hand-painted finish gives it a finely-aged look, even newly-installed.

# COTTON SUMMER WEIGHT GARDEN COVER

Protect your garden like you protect yourself in summer, providing a buffer from the sun's rays and keeping buzzing pests away. This all-cotton garden cover keeps tender plants from getting a sunburn and insects from munching your crops before you get a chance. Drape directly over crops or attach to garden hoops. 164" L x 100" W.

# ESSEX ROMAN ARCH & WALL TRELLIS

These coordinating, classically-inspired supports fit perfectly with a more formal design style. The Essex Roman Arch creates an elegant entryway that invites and guides visitors into your garden. The Essex Wall Trellis turns blank spaces into green spaces, giving support for flowering vines that instantly make the area more inviting and more visually interesting.

# OASIS SELF-WATERING TOMATO PLANTER WITH TRELLIS

Minimalist design, maximal harvest. Our newest self-watering planter in fresh, modern colors is perfect for patio and balcony growing, supporting sturdy stems and producing plump tomatoes. Includes 3-tier trellis, with optional extensions (sold separately). Add a Roller Ball Kit (sold separately) for easy mobility. 2.75 gallon reservoir, 36 quart soil capacity.

# DEA ROMAN ARCH AND PLANTERS

Tall, strong, and handsome, the Dea Arch dazzles in royal blue. Paired with coordinating coir-lined planters (sold separately) and filled in with verdant vines and colorful blooms, the Dea Arch creates a striking look that'll make your neighbors green with envy.

# DEA ROMAN ARCH CONNECTORS

Link multiple Dea Roman Arches into a stunning allée. Each set of 8 arch connectors lets you create a tunnel with 2 arches. Connect as many arches as you want, with more connector sets and more arches.
